

# Acrylic Windows

Horizontal Acrylic Panels are custom made to fit your existing openings. Acrylic Panels feature sturdy aluminum frames. Easy one-finger slide from side to side with specially designed rollers, featuring a special designed locking system. This provides a safe and durable product for screen enclosures on golf courses. Safe for children and pets. You'll appreciate the durability of Custom Window Systems, Inc. XX Acrylic Panels. Discover the alternative to the habitable space glass room with the non-habitable space Acrylic Panels. When in the closed position, they offer protection from the outside elements. When they are opened, they allow 50% airflow through the screened area. Vents are removable, allowing total screen room ventilation.
