

Limited Warranty – Acrylic Windbreakers

DISCLAIMER: Acrylic has prevalent characteristics such as slight discolorations, blurs, bubbles, and hairline scratches. These are expected as they are inherent qualities in the acrylic. Most acrylic will “crown.” Crowning is not warranted. Because Acrylic Windbreakers are not a “permanent” product, you may notice water penetration from time-to-time. This is not warranted.

LIMITED LIFETIME WARRANTY: The aluminum frame is warranted for life, if properly used and installed, to the original consumer purchaser, to be free of defects in material and workmanship, ordinary wear and tear excepted.

LIMITED TEN YEAR WARRANTY (Acrylic Sheet) CYRO INDUSTRIES and/or ATOFINA CHEMICALS, INC., ATOGLAS DIVISION, warrant all users that for a period of ten years from the date of original purchase, flat, colorless (clear), smooth AcryLite® Acrylic Sheet manufactured by Cyro Industries, and Plexiglas® MC Acrylic Sheet manufactured by ATOGLAS, will not undergo a change in light transmission in excess of 3% when tested in accordance with the procedure specified in ASTM-D-1003. This Warranty does not cover sheet exposed to artificial light sources emitting intense amounts of UVB or higher energy radiation. Not covered under this Warranty are yellowing or loss of light transmission caused by dirt, scratches, breakage, or damage or loss caused by harmful chemical action, environmental conditions, atmospheric deposition, abrasion, changes in the physical structure of the AcryLite® or Plexiglas® MC Acrylic sheet or resulting from fabrication, handling, maintenance, storage, transport, cleaning and/or installation contrary to CYRO or ATOGLAS recommendations.

LIMITED FIVE YEAR WARRANTY – COMPONENTS: Component parts are warranted for a five (5) year period commencing from the date of sale to the original consumer purchaser as long as he/she owns and resides in the home in which the products were installed. This warranty is not transferable and ensures only to the benefit of the original consumer purchaser.

LIMITATIONS OF WARRANTY: This limited warranty does not apply to any damage caused by or the result of improper handling, installation, operation, maintenance, accident, fire, natural disaster, explosion, abuse, vandalism, chlorine, chemicals from sprinkler systems, or other external forces. This warranty shall be null and void if harmful solvents are used to clean the frame, sash component, acrylic or if the frame and/or sash component are painted or coated in any way. This warranty is void if the Windbreakers were pressure cleaned.

This limited warranty is made in lieu of all other express warranties and extends only to the original consumer purchaser. In no event shall Custom Window Systems, Inc. be liable for special, punitive, indirect, incidental, or consequential damages or losses the consumer may suffer or incur in connection with this product or its use or for any delays in performance of this warranty due to circumstances beyond its control. Any warranties implied by law, including those of merchantability and fitness for use or for a particular purpose are limited in duration to the express warranties herein.

Some states do not allow limitations on how long an implied warranty lasts; and some states do not allow the exclusion or limitation of incidental or consequential damages or the limitation of remedies for a breach of warranty, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights that vary from state to state.

CLAIMS PROCEDURE: If a warranty claim should become necessary, the original consumer purchaser should contact the **INSTALLING DEALER**. No person, firm or corporation is authorized to alter or change the above warranty or to impose any other liability on Custom Window Systems, Inc.

HOW TO CLEAN YOUR ACRYLIC WINDBREAKERS

1. Acrylics can be scratched with a rough cloth, harsh soaps, or cleaning products and these must be avoided.
2. We recommend for a bright, lustrous look, you use 210® plastic cleaner/polish.
3. Use a non-abrasive soap or detergent and water. Use a soft sponge, cloth or chamois and rinse often to keep it free of grit.
4. Tracks should be cleaned when needed, to keep dirt and other substances out of tracks that could prevent easy operation of rollers or plug up weepholes.
